Career Objective

Computer Science undergraduate with hands-on experience in MERN stack development and a strong foundation in Data Structures and Algorithms. Seeking a Software Engineer role to apply problem-solving and full-stack development skills in building reliable and user-focused software solutions.

Education

- **B.Tech — Computer Science and Engineering** 2023–2027
GMR Institute of Technology, Rajam | **CGPA: 7.5**
- **Intermediate — MPC** 2021–2023
Sri Chaitanya Jr College, Vijayawada | **GPA: 9.7**
- **Secondary Education (10th)** 2021
MJPAPBCWR School, Gundumala | **GPA: 9.3**

Skills

Technical Skills

Languages: C++

Web: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Databases: SQL, MongoDB

Core Skills & Strengths

Core Concepts: Data Structures & Algorithms, Problem Solving

Strengths: Logical Thinking, Quick Learner

Soft Skills: Communication, Teamwork, Adaptability

Development: REST APIs

Projects

1. Placement Tracker | [GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack application to manage placement preparation tasks using CRUD operations.
- Implemented task search, status filtering, progress statistics, and REST API integration with MongoDB.

2. AI-Driven Accident Prevention System | [GitHub](#)

Tech Stack: React.js

- Developed the React.js web frontend for an AI-driven accident prevention system.
- Built interactive interfaces to visualize accident risk predictions, hotspots, and safety alerts.

3. Developer Portfolio | [GitHub](#)

Tech Stack: React.js, JavaScript, CSS

- Developed a responsive personal portfolio using React.js to showcase projects, technical skills, education, experience, and achievements.
- Built reusable React components and a responsive user interface with smooth navigation and interactive elements.

Internship Experience

• Frontend Developer Intern – Lineysa and Thevan Software Technologies

June 2025

Developed responsive web interfaces using HTML, CSS, and JavaScript, focusing on frontend design, user interaction, and improving the overall user experience.

Achievements

- Solved 130+ DSA problems on LeetCode, strengthening problem-solving and algorithmic skills.
- Participated in competitive programming contests and coding challenges.

Certifications

- Prompt Engineering for ChatGPT
- Joy of Computing in Python — NPTEL
- Introduction to Generative AI
